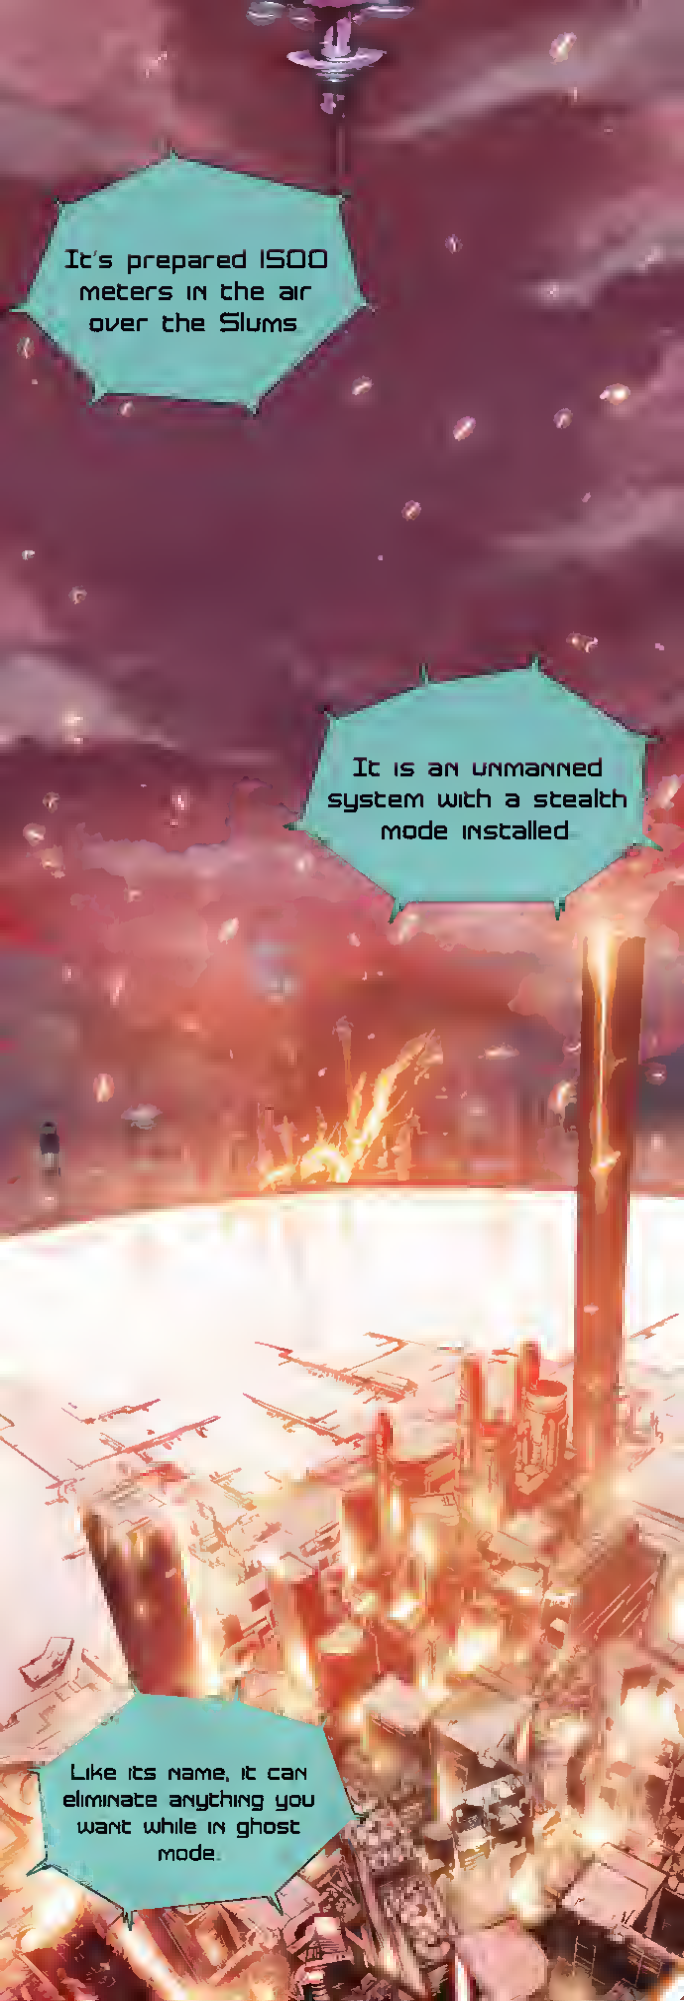
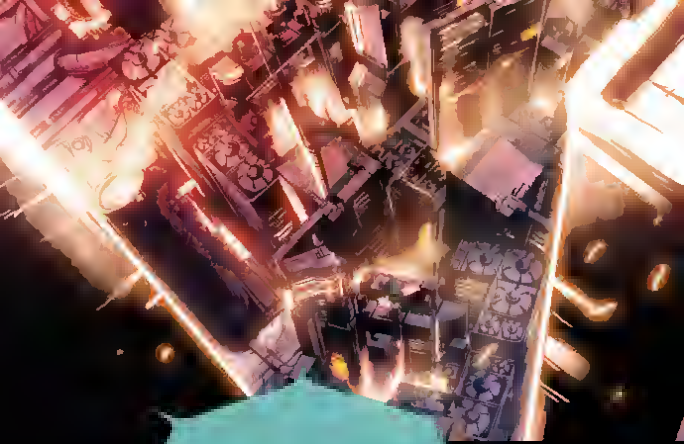
TL/N: Translated to "Phantom's Eye" in the part 5
Just noting the change.



It's prepared 1500 meters in the air over the Slums
It is an unmanned system with a stealth mode installed
Like its name, it can eliminate anything you want while in ghost mode.

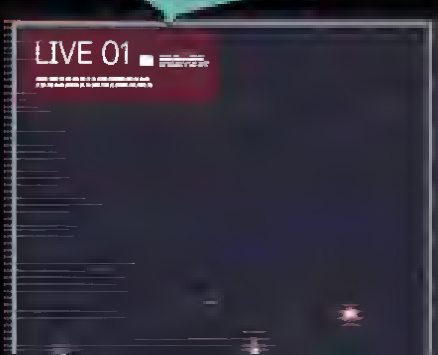


It's only 30% completed but there is no trouble in testing it

We've prepared the target for the place you designated

The abandoned factory in the slums, Area 3...

I'll switch over to the cameras inside



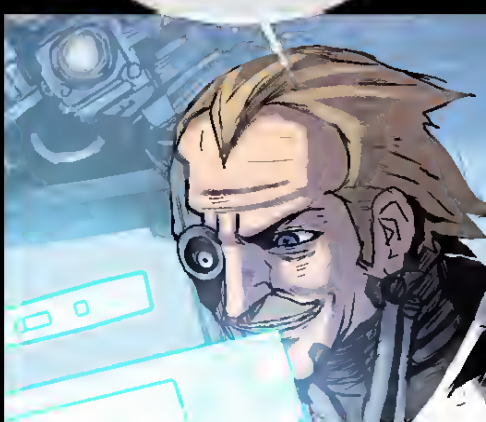
There are 30 dolls waiting to be disposed due to failure to control them.
Uhh... Sa... save...
Uh... ugh... Sa... save... us...

PART 06.Ghost Eye (유령의 눈)

MADE BY.최윤열

Due to control failure, their personalities are left.

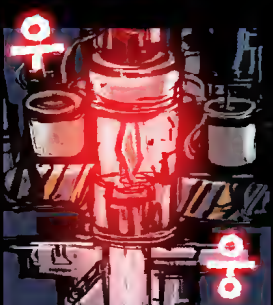
Don't mind them as they will *be dead soon.*



Sa... save me... I've done nothing wrong... Sa-Save me...

START.

GHOST EYE OPERATIONS READY!



Left side open.

Crystal Energy added.

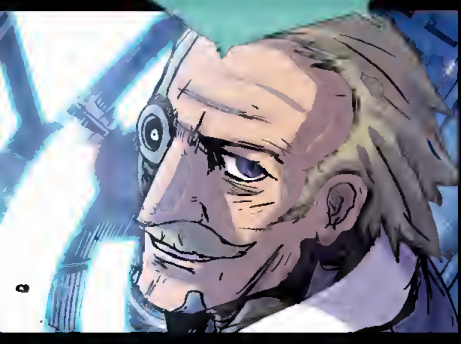
Do you like it?

At 30% complete, it's capable of destroying 30 dolls at once. When it's completed, it'll likely...



be able to decimate
OVER HALF OF THE
SLUMS, AREA 3.

GOOD! VERY GOOD!
It's stronger than
I expected!

I'm sure you'll take care of the aftermath.
A lot of things happen in the Slums, Area 3.
For example, an old abandoned factory getting blown up because of a gas accident... I have a scenario prepared

Take care of it as you'd like...

If they're going to let watch dogs out...

I need to be prepared.

Ghost Eye' Stealth mode activated. Main gate opened

Madam. Recently in the Slums, Area 3, the number of incidences involving dolls has exponentially increased.

According to investigations the reason is...
Madam...?
Ma... dam. Ar... Are you listening?

Wh... What are you doing?

What's with the sparkles all of a sudden?

Ha Ha... This is a daily activity Madam does every day after she has her coffee.

Daily activity?
She is *photosynthesizing.*
Please wait a moment.
She's almost done.

.....
She says to continue.
What...? Yes...
Photosynthesis...? Huh...?

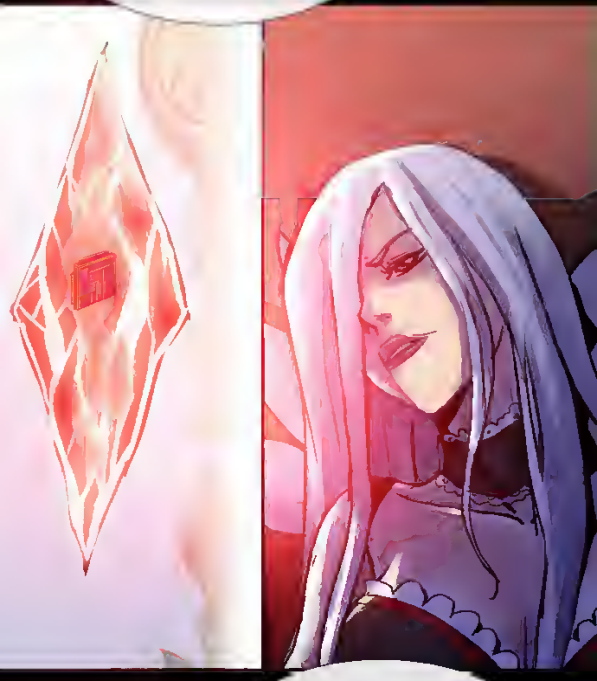
Madam. I think you know what this is.

This is a *RED CRYSTAL* that was created 4 years ago for combat use.

However, at the time of its creation the project was discontinued because of the dangerously high incidences of dolls compared to its combat power.

SFX: TAK

According to the analysis, it's not the original but a *remodelled copy*.



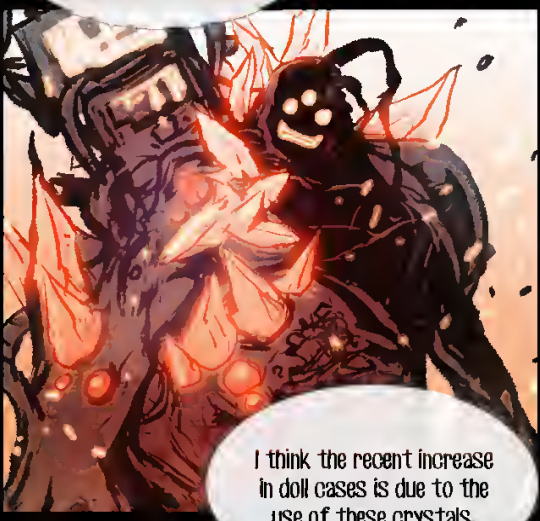
Though it is a copy, its power is close to the original's and it is more dangerous.

We're not sure how they got the manufacturing plans...

But someone is *creating and distributing them.*

Our investigation revealed the crystals are being quietly distributed to highly polluted vulnerable people under the guise of being the god crystal that has the ability to fix a human's pollution.

As you know, this is a death crystal that has a *100% chance of turning a person into a doll.*

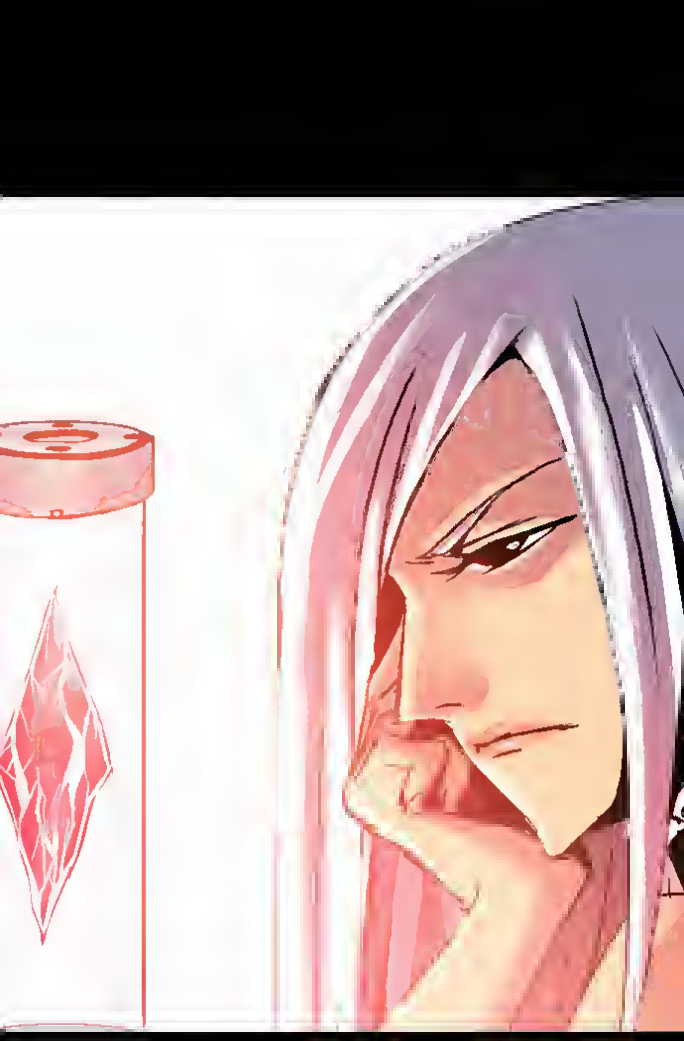


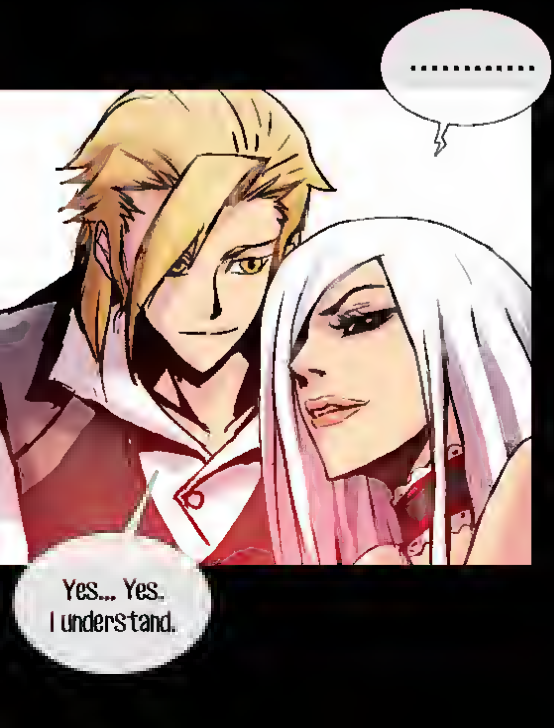
I think the recent increase in doll cases is due to the use of these crystals.

For now, it has only been found in the Slum, Area 3, but soon it will spread to the rest of NIL.

If that happens, *NIL itself will be in danger.*

Until we can catch the organization manufacturing these crystals...
PLEASE LEND US MR. CRAZY DOG.

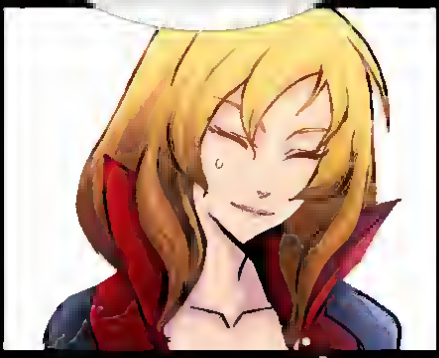




.....
Yes... Yes.
I understand.

Madam says she has no problem with you borrowing him.
But she *will not take responsibility for anything that happens.*

And she says to pay 3 times the cost of what you are thinking.



Haha... THIEF!

How is the next plan going?
The completed HUNTER has been deployed into the operation.

It should have arrived about now
